408	Association of Consulting Engineering Companies-Ontario	<p>ACEC-Ontario would like to provide a comment regarding the new subsection (e) in Sec 15.1, which adds a requirement for an 'additional insured' endorsement. We believe that this should be expressly referenced against the CGL policy or expressly exclude Auto and PLI in the requirement.</p> <p>Accordingly, we suggest replacing "The Service Provider and naming the Ministry as an additional insured" with "With the exception of subsections 15.1(b) and 15.1(c) herein, the Service Provider shall include as an additional insured, the Ministry". The clause would then start off to read, "With the exception of subsections (b) and (c) herein, the Service Provider shall include as an additional insured, the Ministry, His Majesty the King in right of Ontario...etc.".</p>	<p>Thank you for the comment. MTO's proposed language in the Legal Terms and Conditions regarding changes to insurance will not be implemented in the procurement documents at this time, pending further discussions with stakeholders.</p>
