

AMENDMENT TO OPSS 906, JULY 2025

Special Provision No. 109S59

November 2025

Rolled Structural Steel Sections

906.05 Materials

Subsection 906.05.05 of OPSS 906 is amended by the addition of the following:

906.05.05 Steel

Rolled sections may be substituted by a section fabricated from structural steel plates, bar, or coil, with continuous fillet welds at the flange to web junctions, provided the cross-sectional area and second moment of inertia in both axes do not differ by more than 3% from the rolled section.

WARRANT: Always with OPSS 906, Construction Specification for Structural Steel for Bridges.
